ISA CATTLE COMPANY

SPRING  
2006

## Performance testing for 70 years!

Tom Lasater began weighing his bull calves 70 years ago this month. He did so in a period in our history when cattle were being sold by the head, and he was recognized as a crackpot, a revolutionary genius and everything in between.

Tom Lasater saw that weaning weights and a defined breeding season of 90 days or less were two extremely simple ways to identify high performers and low performers and, by doing so, enforce the Six Essentials. Today, weighing calves is the cornerstone of any relevant breeding program and *should* be as routine as turning out bulls.

We take our heritage of performance testing very seriously, and it shows in our cattle and in the performance information backing them up.

## Observations on genetics

### Calving-interval records

We don't need any calving-interval records. Every cow in our herd has a 365-day calving interval or she is gone. Tom Lasater was the first breeder anywhere to establish this baseline. In our herd, every heifer calves in the same 60-day slot as her mother and grandmother, and that includes AI and ET calves.

In reading sale catalogs from other breeds, it is obvious from the bulls' birthdates that few breeders follow this policy. It is a mystery how someone could buy a bull from a breeder who is not pushing fertility.

### Heifer bulls

We don't have any heifer bulls. Every herd bull we keep and every semen bull we use is first bred to heifers. Why would anyone breed anything to a high-birthweight bull?

## Charolais heifers

We have available 20 choice yearling registered Charolais heifers for sale. Please call Laurie or Lorenzo for more information.

## Fiesta herd bull prospects

Lot 185, Frenzel 515-4

We will have some terrific herd bull prospects available from the Frenzel and L Bar herds.

# BEEFMASTER FIESTA

## New Fiesta date ensures selection

Dear Friends,

I hope spring has sprung where you are. I know it's still dry in a lot of places, and it sure is here. But as the old-timer once said, "We're one day closer to a rain."

On behalf of the family, I'd like to cordially invite you to the **Sixth Annual Beefmaster Fiesta on Saturday, April 29th**. We've changed to a later date this year to enable us to offer more pairs and better match up with our customers' grass availability. I'm really excited about this year's lineup, which includes over 50 pairs and 40 bred females. Many of the calves are out of great bulls, such as L Bar 5502, L Bar 2118, L Bar 2320 and others.

We will also have a nice selection of herd bull prospects from Frenzel Bothers and the L Bar herd. In addition, we have our annual Fiesta semen specials running. You can see the bulls

offered (back page) and call us for more details.

As always, if you can't make the sale, we'll be happy to fill an order to your specifications—satisfaction guaranteed. We're also offering free delivery on orders of 10 or more females.

People often ask me why we sell our cattle

and semen so reasonably and why we give so much information for free. The answer is simple: If we are to succeed, it's imperative that our customers be successful, long-term players in the Beefmaster business, too.

I'll share a story with you that illustrates my point. Terry and Kathleen Myers have been buying cattle at the Beefmaster Fiesta since they joined the Beefmaster industry. We have had countless consultations, answered a million questions, looked at pictures and talked on the phone. Over the years they have been great customers, great friends, and I have enjoyed watching them learn and grow in the business. At the 2004 Beefmaster Fiesta, the Myers purchased a bred female, L Bar 9241 for \$2500. *In 2005, they sold the bull calf out of that pregnancy for \$14,000.* Today, they call him Top Gun (left). That's the kind of success story that makes it all worthwhile.

It's been a banner year for registered sales of all breeds, and many Beefmaster sales have reached record highs. It's an exciting time in both the registered and commercial sectors as we continue to enjoy outstanding prices for our cattle.

We look forward to working with you in the coming year. On behalf of the entire Isa crew, we wish you gentle rains, green grass, happiness, health and prosperity.

Regards,

Lorenzo Lasater—President

**WHITETAIL LODGE**

herd, but there were some beautiful whitetail bucks and some awesome blackbucks, including a couple for the record books! More importantly to me, folks had a great time—getting away from it all and enjoying some good ol' West Texas hospitality.

We are now booking summer blackbuck hunts, fall dove hunts and trophy whitetail hunts.

We have also developed a whitetail breeding program and will be offering a limited number of buck and doe fawns this fall out of bucks such as Titan (above right) and Woodrow (right), as well as a select number of bred does. Call us if we can help you stock your ranch with outstanding whitetail genetics.

Fawns and Bred Does available Fall 2006!
